## PUTTING ERGO™ TO WORK

Ergonomics is the science which optimizes how you interact with your environment.

Ergonomic tools offer better interaction as they're designed to fit you.

Comfortable design means required grip strength is kept to a minimum, which allows hand muscles to relax and reduces the risk of fatigue.

Lindström's ERGO™ tool handles are designed to give you the excellent sensory feedback you need for precise control and the confidence you need to deliver the best results

The Easy-Lift Series features workstations that are height-adjustable at any time. These stations are essential for multi-shift facilities where several employees may be using the same station. Our Electric Stations provide effortless height adjustment with a push button, while our smooth hand-crank with a push button and a memory setting. Our Hand-Crank Adjustable Tables has a smooth crank mechanism for precise worksurface positioning.
